The Daily Journal has much the argest circulation in the city and double the circulation in the country of any other daily paper printed in Louisville; and the Weekly Journal has much more than double the circulation of all the other weekly papers in Louisville put

IMPROVEMENT OF THE OHIO .- Judge Brack-Inridge of Pittsburg, in suggesting the improvement of the Ohio by locks and dams, has no aken pains to make accurate caiculation This business of converting a navigable stream into a series of pools is ona that demands as extent of knowledge founded upon a great deal of practical experience, such as few men pos sess. A great many of the efforts in creating slack-water navigation have been disastrous and a few millions of dollars might be expended upon the Ohio river in such a way a

The improvement of the Ohio river by lock and dame occupied the attention of Major Ba ker, one of the first engineers in this departmen of engineering that the country has produced He was in the employment of Kentucky for many years while she was endeavoring to in prove her means of transportation. Major Baker devoted almos' the whole of three years to a thorough examination of the whole subject of improving the Ohio. He was perfectly fami with everything that related to the project ed improvement. His correspondence with multitudes of men who possessed information on the various points involved would have been guilty of such a thing. made an immense volume, and his estimates for every mile of the Obio were made upon the no most reliable data. Those estimates would have Kansar either a free or a clave State. made several large volumes. The lowest esti mate of the cost of improvement of the Oh o. enterprise of the age, it is very certain that he taken on his plane and estimates; and, whenever er it shall be commerced, the papers of Mejo Baker should be secured, as by for the mot valuable data on the enterprise that are in existence. There is great room for improveme the Ohio, and it is to he Loped that some liable method will be undertaken.

The Louisvite Journal tells its readers that "al hough Mr. Buchanan has obtained a majority of the electoral votes be has not even a plurality of the popular vote." It seems ulterly inconsistent with the character of that paper to tell the truth.

The Nashville Union and American thus begins a pitiful paragraph disperaging the Louis cient either in common sense or common honesty, who undertakes to base a charge of falsehood upon such a foundation. The quota tion from the Jonnal, alluded to by the editor of the Nashville Union and American, is the most barefaced and in amous and us justifiable pieca of garbling that we have ever seen. few days after the election, when rumors of all kinds were rife and but few official returns has been received, the following santence appeare

true meaning of the sentence as we wrote it, and makes ne appear to say what we did not say and did not intend to say. To find sompattry pretext for a charge of falsebood against us, he has committed a contemptible fraud.

assured the National Intelligencer for committee and the national Intelligence for the national Intelligence for Three weeks after tha election, when the re-

sult is defiul'ely known, he parades a caicula tion to show what we had stated several days before, that is, that Buchanan has actually plurality of the popular vote. The charge of faisehood recoils upon its author with that of wil ful, garbling and misrepresentation super-Two Sag-Nicht papers now before t

allege that wa rendered Mr. Buchanan more service than they did. The editors of those apers are evidently jealous of us-apprehending, that, on account of what they consider o superior services to Mr B , we shall be in them way in the distr bution of the spoils. We be, poor scared wretcles to dismiss their fears We shall under no circums'ances permit thei old master to be embarrassed by any claim et ours. We are not willing to accept anyt in; f om him but good will and gratitude for ti many piain, honest, and needful truths we have told him. Some of the Nag-Nicht organs seem t insist that Mr. Buchanan shall appoint Genera Cass Secretary of State. We suppose that Case is is most respects as good as any of them He did well in the memorable crisis of 1820; ye' we cannot belp remembering that in ma y ye rs, his belligerent disposition toward fores n countries, particularly England, seemed almor an insanity. He was always imagining that our country was on the verge of a war. Daily he proclaimed that war was inevitable, and endeavored to stir up the mind of the nation t blood and carrage. He came to be generall genown as "the Inevitable Cars."

However, if Mr. Cass were Secretary of State, he would very probably appreciate come extent the responsibilities of his positi and exercise a much greater spirit of mode, a tion toward foreign countries than be used to in the Sena'e. On the whole, we think we had better not give Mr. Buchanan any advice in

regard to him. What we said beforehand as to the effee' of the elec'ion of Mr. Buchanan is bei g rea zed. We said that his election would no a lay but rather increase the fanaticiem air add to the strength of the Northern factionists And this has been the effect thus far and must

Really this must be something of a hulks 3d of March, 1.55, making I s whole servi giebe of ours when the echo of an event is three years traveling back to its scene. The physial philosophers calculated the distance of a rext in the order of seniority, his service da-bunder cloud by the time which elapseshe-ting from the 3d March, 1843. He is now in his third term. The Hon. Lewis Cass comween the flash of the lightning and the sounding of the report. If Mr. Buchanan has any friends in th South who approve or think they can defend the writing of Mr. Buchanan's Pacific Railroad letter under all the circumstances of the case let them step forward with their defense. We have no doubt that anything looking like a plau-sible vindication would be very much valued by the "sage of Wheatland;" and perhaps it might

be rewarded. We think the general sentiment of all partie is that the writing of the letter in question was one of the vilest and most contemptible move-

That the example thus set, and thus cheerfully accepted, was not followed by his successors, is not for the reason, certainly, that the country has not since had even higher occasion for gratitude for the signs! his successor's Thankesiving proclamation is a very interesting document, and has not lately been brought to public notice. Few persons indeed, are probably aware that Washington, during his Presidency, Issued such a proclamation.

indicated a Probably aware that Washington during his Presidency, Issued such a proclamation.

It was done at Philadelphia, 1st Jan, 1795 and the 19 h of Independence, and by the President and Secretary of State—then Edward Randolph—who was, also, probably the writer of the document. Some of the especial reasons for thackfulness here recited would apply well to the present condition of things; for in stance: "Exemption from foreign war, and an increasing prospect of the continuance of that exemption; the great degree of internal tranquility we have enjoye; the recent conservation of that tranquility by the suppression of the late in urrection which so wantonly threatened tig the happy course of our public affairs in general; and the unaxampled properties if all classes of our f-llow-citzvas." That we have escaped from insurrection and disruption at a time when the tranquility of the country war more seriously threatened than if ever war in the earlier days of the Republic, is due to the signal mercy which has ever distinguished out lot as a nation.

Among those things for which thanks were to be rendered was—"For the hessings of a Constitution and Government, which unite, a.d by their union establish liberty with order, for the preservation of our peace, foreign and danget in the preservation of our peace, foreign and danget in the respect, and it appears to meatic." And this has been the effect thre far and must inevitably continue to be the effect hereafter. The Freezoil party is decidedly stronger at this moment than it was on the 4th of November, and, if Mr. Buchanan, as President, shall meet in any degree the wishes and expectations of his Southern friends and supporters, that party will in less than one year be powerful erought to sweep the Democracy from the face of the land in every non-slaveholding State of the Presidency, whose election would have secured peace to the country. Lord Palmerston, the Prime Minister of England, has lately visited Mauches'er and Liverpool. The authorities and citizens of those great commercial and manufacturing centres accorded him the most enthusiastix and flatering reception. He speeches on the various occasions inclident to his visit, as republished in our Eastern exchanges, were exceedingly vigorous and happy. They display all the spirit and viscity of yonth with the unifailing and invincible tact of age. Of course they were received with boundiers favor. After all the severe and just things said of Palmerston's implacable toryism, he is undoubtedly the most popular man in England.
